"City View," the residence of Mrs. Eliza D. Barton, on the 3d inst. President Pierson being too unwell to attend, Jss. W. Roberts was elected chairman protem. There being no special subject for consideration, E E. Muson read an article from an agricultural paper, in which the writer gave some of his experiences in farming towards the close of experiences in farming towards the close of experiences in farming towards the close of a checkered career, moralized upon the results thereof. He had gone at the business with much esthusiasm; mortaged his property for the means to improve it, and then lost it all. He had "picked his flint" and tried it again, this time avoiding the mortage; just worked along as he could make gage; just worked along as he could make the could make gage; just worked along as he could make gage; just worked along as he competency.

Bristol is not a "Paper" city; it has a population of about 12,000 live, energetic people, is rapidly growing and is destined to be one of the largest manufacturing cities of the South. It less within 3 hours of inexhaustable coking and demestic coals, the richest iron ore in the U.S., and immense bedies of Virgin timber, all of which reach Bristol viz the S. A. & C. and Elizabethton reads. Its advantages of transportation and nearties to tried it sgain, this time avoiding the mort-gage; just worked along as he could make ends meet, finally arriving at competency. He had concinded that money could be often berrowed to advantage if used judiciously. For instance, vary frequently in making purchases for cash much more could be saved than the amount of interest paid.

Then Secretary Rusk's late address to farmers upon some of the causes of depression and the remedies was discussed, and thought by these who had read it to be in the main an able and judicious handling of the subject. A rambling discussion of the various matters gone over then ensued, mak-ing things lively sometimes.

While talking about the low price of eggs and the need of a protective tariff thereon, a lot of hens just outside joined in the discussion and set up a vigorous cackling, thus to set the seal of approval upon what had been

One member thought some of those who were in the habit of seiling what butter they could in Washington and then bringing back the surplus and selling it at a low price in Alexandria, needed some kind of a

The efforts of some of the milk dealers in Washington to put the wholesale price of milk down to the very lowest notch possible, was commented on severely, and the necessity of combination of the produ-cers to offset it was conceded, but the difficulty of securing concert of action was suggested by some, as there are so many farm-ars who wan! to be independent—free to "paddie their own canoes," though several instances were mentioned where this had seen successfully done farther North and

Dr. A. W. Swedburg, V. S., who has established himself at Alexandria, was pres-ent and gave some account of his experience in his profession; also replied to some questions about the prevailing diseases among cattle and horses.

The chairman distributed some circulars of Heuling's Improved Milk Aerator and

WHAT PARESIS IS - Paresis," said s physician last night, as he lighted a cigar and told a patient that smoking was a dangerous vice, "is a disease of which men, particularly men of affairs, are very rouch afraid. It is a hopeless disease, and physiclans have never been able to cure it. The fear that it excites is due to the fact that it is a malady that men can measure as it grows from day to day. Paresis is popular-ly known as softening of the brain, but it is quite the reverse. The brain hardens and contracts. The popular idea that this awful malady is due to excesses of an improper sort is altogether wrong. The great cause is worry, overwork, a too constant applica-tion of the brain along the one idea that is dominant in the United States—a desire to grow rich. I saw an article in the news-papers not long ago that stated that the man of undisciplined mentality, the selfmade man--in fact, the man whose brain was not systematized by a good education, Consignments of Flour, Grain and Country Protype of man, and it has been my observation that this is true. Men who cannot stand success, men who, to use a popular vulgarism, have the 'swelled head,' fall quicker than others. Yes, it is true that no newspaper man has died of paresis .- New
